

Onsite Branding Opportunities

Ceiling Hanging Banner

Ceiling banners provide high visibility by drawing attention to your booth from across the show floor. This sponsorship allows you to display a banner suspended above your exhibit, making it easier for buyers to spot your location and navigate to your booth.

You may supply an existing ceiling banner or produce a new one specifically for the show. If you need guidance on recommended banner types, sizes, or materials, our team is happy to assist.

*Width of your ceiling banner cannot exceed the width of your booth.

This sponsorship includes coordination of banner installation and removal by the show's official contractor.

Storage after the show can also be arranged if requested. Please follow the specifications and submission instructions below to ensure proper installation and compliance with show guidelines.
